MALABAR®

ART LOVERS CAN'T AFFORD TO MISS THIS...

Malabar designs and crafts exclusive artisanal furniture with a distinct artistic aesthetic. Established in 2012 with the launch of a range of decorative Portuguese Fado guitars and the World Architects furniture collection, Malabar has released to date a total of 5 exceptional furniture, upholstery and decorative accessories collections.

Abandoning the rules of right and wrong, most recently Malabar launches the Future Classic's collection that is all about to move, to shock, to offend, or to be fabulous in your interior décor.

Malabar design and handmade production stems from the Porto area, a northern region in Portugal with a long and strong tradition in artisanal handcrafted furniture.

SHAPE ART

The new collection is a visual translation of Malabar genesis. Art, handcraft, and exclusivity are part of Malabar's story since the beginning. From the traditional Portuguese fado guitar collection to one of the most ubiquitous of all art forms to have emerged from human history, ceramics.

Malabar teamed up with Grau Cerâmica to draw a Limited-Edition Ceramic Collection.

Each piece is made by hand in Portugal through the hands of Grau Cerâmica. Inordinately satisfying to touch, the Venus Chaise Vase has a warmth that comes from the use of clay. This soft natural material can be structural and functional in interior design.

Employing the Malabar signature, the elegant proportions of this symmetrical chain vase and clean lines adapt smoothly to modern interiors.

CASEGOODS

FIGEN CONSOLE

W 140cm | 55.1" D 45cm | 17.7" H 90cm | 35.4"

Figen's structure is made of wood finished with crystalline lacquer over silver leaf, with legs embellished with wood, adorned with hand sculpted wooden floral ornaments. This piece is the perfect choice, if you need the "key piece" for your contemporary living room. Figen Console was designed by Malabar and is part of the Heritage Collection.

Material | Structure in wood finished with translucent lacquer over silver leaf. Legs in lacquered wood, adorned with hand carved wooden floral ornaments.

PROPORTION CONSOLE

W 182.4cm | 71.81" D 45cm | 17.71" H 90cm | 35.43"

"I don't want to be interesting. I want to be good". The author of these words, Mies Van der Rohe, is the inspiration of the Proportion Modern Console and its symmetrical design. Worthy of reference, this contemporary piece combines simplicity with design in a sublime and natural way, appealing to those who prefer functional and modern furniture pieces.

Material | Structure in ironwood, legs in lacquered wood. Interior of the drawers in satinwood.

PROPORTION II CONSOLE

W 182.4cm | 71.81" D 45cm | 17.71" H 90cm | 35.43"

This contemporary piece combines simplicity with design in a sublime and natural way, appealing to those who prefer functional and modern furniture pieces.

Material | Structure in wood, finishes composed of piano black lacquer, walnut wood, ironwood, gold leaf, radiant orchid lacquer, blue lacquer with satinwood details. Legs in lacquered wood. Interior of the drawers in satinwood.

WANDERLUST CONSOLE

W 147cm | 57.9" D 40cm | 15.7" H 90cm | 35.4"

The Wanderlust Console, with black and gold marble, has a diversity of polished brass pipes with different thicknesses. It carries an unnatural yet organic landscape into contemporary interior areas, just like Suppose's project. The clear glass top gives a rare style and grace to this modern piece.

Material | Structure in polished brass adorned with rosso levanto marble accents. Console top in clear glass.

Refusing to recognize the authority of any single style or definition of what art should be, Malabar creative minds designed the Ahrt Console. Malabar draws your attention to the mismatched colors, materials, such as wood, marble, and brass, and shapes of this unusual console that can be placed in the room to create an artsy, sculptural statement. The Ahrt console personifies the maximalist marriage of shape and color.

Material | Table top in lacquered wood and gold leaf with gloss varnish. Structure in lacquered wood and polished brass with gloss varnish, green viana marble and solid walnut with matte varnish. Details in polished brass with gloss varnish.

Art tends to evoke specific emotions when our gaze falls its way. Art is only there for us to look at and appreciate from a relative distance. Malabar designed a highly functional console that carries out its specific purpose — to provide a decorative display — while adding an undeniable artistic element to a room.

Material | Table top in lacquered wood in different colors with gloss varnish. Legs in lacquered wood in different colors with gloss varnish, gold leaf and polished brass with gloss finish. Details in lacquered wood, polished brass, hammered brass and hand painted glass..

The Horizon Modern Console recalls the tales of the Portuguese maritime exploration, retold by ingenious poets and common people alike for many centuries thereafter. Inspired by the divine sight of a new land from distant waters, this contemporary piece was designed with the organic contours of a coastline in mind.

Material | The console top and the base in walnut wood root and the two wooden drawers coated in gold leaf, finished with high gloss varnish. Structure in lacquered wood finished with high gloss varnish.

VIRTUOSO II CONSOLE

W 120cm | 47.2" D 40cm | 15.7" H 90cm | 35.4"

Inspired by the iconic Virtuoso family, that emphasizes the uniqueness of the Portuguese tile, Malabar created yet another luminous modern furniture piece: the Virtuoso II Console.

Material | Structure in wood finished with translucent chocolate lacquer over gold leaf, drawer fronts in carved wooden tiles lacquered in black, legs in lacquered wood, finished with high gloss lacquer. Interior of the drawers in satinwood lined with velvet.

DINASTY CONSOLE

MADONNA OTTOMAN

W 110 cm | 43.3" D 110 cm | 43.3" H 45 cm | 17.7"

Always curious about new scientific discoveries, the atom becomes one of Salvador Dalí's favorite subjects of reflection. Dalí borrows the image of a Madonna by Raphael Sanzio to conceive the Maximum Speed of Raphael's Madonna. She breaks up into spheres, geometrically perfect figures, and forms resembling rhinoceros horns as Dalí unearths logarithmic spiral forms based on the pattern of Divine Proportion.

Inspired by the so-called "atomic period" of Dalí, Malabar designers conceived the Madonna Ottoman. This art-filled ottoman features four marble spheres feet and two jacquard velvet upholstered layers. This art-inspired ottoman will enhance your interiors by placing it at select vantage points in your home décor.

TECHNIQUES

: A series of thorough methods and procedures make the most detailed furniture. To bring our pieces to life, our artisans make use of several different techniques

WOOD CARVING

A close-up, slightly blurred photograph of several wood carving tools, including gouges and chisels, resting on a surface covered in fine wood shavings. The lighting is warm and soft, highlighting the textures of the wood and metal.

Wood carving is one of the most common practices in sculpting. Very subtle details can be carved in wood by using a variety of razor-sharp tools, from gouges to saws. The hands of the woodcrafters must exert the appropriate force so the wood is not damaged, which requires the mastery of this art.

A close-up photograph showing a person's hand using a metal chisel to carve a piece of wood. The chisel is held at an angle, and a thin layer of wood is being removed, creating a smooth surface. The background is softly blurred, showing other carving tools and wood shavings.

HAND PAINTING

This two-dimensional art resorts to different techniques with different kinds of paint made of different pigments. For a fully personalized work, where no piece's details resemble the others', artisans use their hands to apply this technique, swiping the brush with their own flow and tact.

METAL WORKING

Act of forging metal through methods like casting, hammering and spinning. To get moldable, metal is heated to high temperatures and handled with specific tools that allow the artisans to create the desired shapes. A type of metalworking is the FILIGREE, a technique as ancient as the year 2500 B.C. Bent and twisted fine threads of metal are shaped into lace-like designs. Very tiny spheres are also used, welded with each other. Specially used in goldsmithery, filigree is carefully handcrafted due to its delicacy, which results in graceful ornaments.

SCULPTING

Just like metalworking, sculpting is the art of changing the shape of materials such as stone, metal, glass, pottery and wood. Having an extremely tactile component given the conception of textures, relief and volume, it represents a technique born in the prehistoric period.

LEAF GILDING

Appliance of a leaf-thin-like coat of metal on top of solid surfaces. These surfaces must be, first and foremost, impeccably prepared with a primer. Only then the metal coat can be in touch with the piece. This technique is thousands of years old and has the ability of transforming even the duller pieces into something breathtakingly beautiful.

WARRANTY POLICY

Malabar provides a 5 years limited warranty against any manufacturer's defects and 3 years limited for materials (leather, fabrics, varnishes, patinas). This means that Malabar will fix free-of-charge any problems due to manufacturer's, but no problems occurred due to wrong maintenance, cleaning, humidity and other pertinent factors.

Malabar does not warrant: changes in surface finishes due to against or exposure to light, damage from sharp objects or imprinting from writing instruments, prolonged exposure to humidity.

Malabar doesn't guarantee finishes against fading and oxidizing throughout the years. Color and finish variations and veining are inherent in metal are considered to be the natural beauty of the material. Upon confirmation of any defect, Malabar compromises to replace the defective part or integrally piece, within a period agreed with the client. Any costs for packing and shipping are not covered under this warranty.

To obtain the proper service under this warranty, the original purchase receipt must be kept.

Failure to comply with these requirements means that the right to complain will be forfeited. The buyer bears the risk for the goods being stored under normal conditions for furniture and for the conditions of the goods during storage.

GENERAL TERMS & CONDITIONS

By ordering our products is implied that you are agreeing to abide Malabar's terms and conditions as written below:

- The current list of prices replaces any other published before;
- The prices always refer to one unit;
- The VAT is not included in the price, so the legal tax must be added to the price;
- Each piece is manually and individually handmade in Portugal, so small knots, stripes, color differences, marked and faint rings of wood grains are signs of genuineness and are not regarded as defects or deficiencies. There might be some slight differences from piece to piece.

PACKING AND SHIPPING

• The packing is always included in our price. We analyze piece by piece regarding the order specifications, and if we consider that it will need a specific packing, we'll do it by ourselves. Like all our pieces, also our packing is made with the best materials in the market to guarantee the maximum successful arrival of the goods.

- The transportation costs and insurance are not included;
- If the client pretends to transport the product(s) by his own method, Malabar will be free from any responsibility due to the mentioned transport;
- Malabar reserves the right to charge 20% extra of the value of transport for each transport deferred with less than 3 days ahead of the dispatch date;
- When receiving the pieces, you should check for

any apparent damage inflicted in the packaging box and materials. Any piece's damage should be communicated during the first 48 hours after receiving the order. The photographic evidence of the damages should be sent by email to info@malabar.com.pt;

- After the complaint is justified by Malabar, the piece will be integrally replaced, repaired or the product exchanged, in a time of delivery agreed with the customer.

PAYMENT CONDITIONS

Malabar starts the production after having the receipt confirmation at least 50% of the total amount. And the lead time starts counting after this day. The remaining amount shall be transferred 3 days before shipping the pieces.

All the pieces are Malabar proprietary until the payment is done and confirmed to its full.
